<b>Date:</b> January 2024	Date: April 2024

To strengthen the USFQ Smart Campus, a committee has been stablished to define strategies on campus operations, build capacity, develop and implementation projects in a cross-cutting manner. This group meets annually to determine the projects to be undertaken. Projects proposals are presented by a panel of experts and then executed in collaboration with researchers, students and academic decision makers.

The committee comprises:

#### Authorities:

- President
- Chief Operating Officer
- Dean of Research

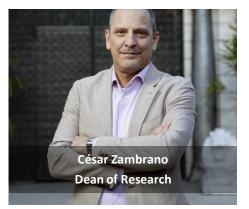

#### Panel of experts:

- Environmental Engineering
- Business
- Mobility and Logistics
- Energy
- Biodiversity
- Sustainable food systems
- Student representatives

### **Authorities**
