

AMAZON WOMEN SCHOLARSHIP

The Amazon Women Scholarship is an initiative designed to support students from indigenous communities in pursuing a master's degree in Tropical Ecology and Conservation at Universidad San Francisco de Quito, Ecuador.

The scholarship aims to empower individuals from indigenous communities in the Ecuadorian Amazon by providing access to higher education opportunities.

The Masters in Tropical Ecology and Conservation goal is to educate professionals capable of advancing our understanding of the ecological processes that shape tropical populations, communities, and ecosystems of megadiverse countries within an evolutionary framework.

SUPPORTING WOMEN WITH ACADEMIC POTENTIAL, LEADERSHIP AND COMMITMENT.

> The Candidate

Eligible beneficiaries are applicants who have been accepted into the master's program and demonstrate a strong commitment to conducting research that directly benefits their community.

The scholarship is designed to support a student throughout the academic period from August 2025 to July 2027.

OUR GOAL

US\$ 30,000
